Instructions for use

The present test report serves to demonstrate the sound reduction of a building element.

Applicable for Germany:

 R_w corresponds to $R_{w,P}$ for DIN 4109 Annex 1 table 40

Validity

The data and results given relate solely to the tested and described specimen.

Testing the acoustic properties does not allow any statement to be made on further characteristics of the present structure regarding performance and qual-

Weighted sound reduction index R_w Spectrum adaptation terms C and C_{tr}

 $R_w(C; C_{tr}) = 35 (-2;-7) dB$

Notes on publication

The ift Guidance Sheet "Conditions and Guidance for the use of ift Test Documents" applies.

The cover sheet can be used as abstract.
