Informations for use

This test report may be used to validate the sound reduction of a building element.

Validity for germany:

 R_w corresponds to $R_{w,P}$ for DIN 4109 Annex 1 table 40

Validity

The data and results given relate solely to the described, tested object.

Testing the acoustic properties does not allow any statement to be made on further characteristics of the present structure which could define performance and quality.

Notes on publication

The ift notice "Conditions and notes for the use of ift test documents" applies.

The cover sheet can be used as a summary.
